S I R:

On September 29, 2005, Applicants filed a Petition For Filing Under 37 C.F.R. §1.47(a), requesting that the above-referenced application be accepted without the signature of one of the joint inventors, Ulf Lindegren.

In a Decision dated February 2, 2006, it was stated that the evidence submitted with Applicants' Petition did not constitute adequate factual proof that the non-signing joint inventor refuses to execute the application, and also did not include a statement of the last known address of the non-signing inventor.

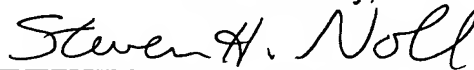

The present Request For Reconsideration is accompanied by another Declaration of Elisabeth Stark, wherein Elisabeth Stark states that the Declaration and Power of Attorney, and Assignment and a complete copy of the entirety of the above-referenced application were sent to Mr. Lindegren on February 10, 2006. Also attached to the Declaration of Elisabeth Stark is evidence that these documents were received by Mr. Lindegren. In her Declaration, Ms. Stark further states that she

personally participated in a telephone discussion with Mr. Lindegren, wherein Mr. Lindegren stated to Ms. Stark that he was refusing to sign the application.

The Declaration of Elisabeth Stark also includes a statement of the last known address of Mr. Lindegren, to which the aforementioned documents were sent, and for which proof of receipt whereof is provided.

All items required to proceed with the examination of this application without the signature of Mr. Lindegren are therefore satisfied, and reconsideration and granting of Applicants' Petition are therefore respectfully requested.
